Rebound Therapy training course reading material

Your course organiser will have given you the code and login instructions to enable you to access the reading material for the Rebound Therapy course. If for any reason you have not received this information, you can access the reading material in the following way:

1) Go to www.ReboundTherapy.org
2) Click on ‘Trainers login area’
3) Enter the code AA123456AB in the box then click 'login'
4) Click on 'Rebound Therapy Training Course Material'

It is necessary for all candidates to read all the course information.
If you have not yet had time to read all the information, the following papers are essential reading before the completion of your course.
Risk Assessments, Benefits, Contra-indications, Winstrada (the development and recording system for ambulant service users)

A video tutorial of how to use the Huddersfield Functional Index to accurately measure and record outcomes for those with profound or complex needs is available to view via this web page:
https://vimeo.com/189366198

Acknowledgements:
The author and publishers would like to thank the following for their invaluable contributions in the production of this work:
Richard Watterston for the original concept of HFI and for his encouragement and support in its development for use with the Winstrada development scheme.
Eddy Anderson – the founder of Rebound Therapy – for his support and encouragement and for his contribution of the foreword.
Winstrada for their efforts and co-operation in adapting grades 1, 2 and 3 of their trampoline development scheme to make them match the exercises covered on the Rebound Therapy training course.
And the following physiotherapists and trainers who trialled ‘HFI for Winstrada’ prior to publication and provided useful feedback and suggestions: Jenny Reilly and her staff at the Caerphilly Children’s Centre; Lee Beesley, Anna Downing and Mrs. Chris Loyden from Springfield School in Kirkby.

The manual is printed annually, therefore we have the opportunity to update and amend the contents on a regular basis. We would be grateful to receive all your suggestions for improvements and amendments to be made to future editions. Please email all correspondence to info@reboundtherapy.org

Additional hard copies of this manual are available by mail order from the following web page:
