

Sensafloat™

GYM-TECH.com

01295 760907

Sensafloat™ is a unique water support aid, designed to facilitate relaxation and movement in water. It has applications for children and adults across the whole spectrum of special needs.

In association with inventor Eddy Anderson, MSCP, Cert Ed, also founder of Rebound Therapy

Winner of the CBI/Toshiba Invention of the Year award in 1993

Benefits include:

- FUN
- SAFETY
- RELAXATION
- EXERCISE
- CONFIDENCE
- THERAPY

Sensafloat™ offers a unique exercise experience. It allows the user to relax and enjoy the sensation of floating on water, while reciprocal support encourages self initiated movement. It allows the user to have fun while developing confidence, independence, aquatic skills and spatial awareness. High motivation increases therapeutic value, as the user is keen to play on it again and again!

- **SAFE AND HYGIENIC**
- **EASY TO STORE AND TRANSPORT**
- **LIGHTWEIGHT, DURABLE**
